

MADE WITH CARE. SAFE FOR PLAY.

Our slime is handmade in small batches with high-quality ingredients and a lot of love.

**WE DO NOT USE ADDED CHEMICALS
LIKE PRESERVATIVES OR ADDITIVES.**

Because we don't use preservatives, proper care helps keep your slime fresh, safe, and fun for longer!

SHELF LIFE

When stored properly and kept away from contamination, our slime can last 2–4 weeks or longer. Always use clean hands and follow the care tips to extend the life of your slime!

**2–4
WEEKS+**

KEEP AWAY FROM

Dirt & Dust

Can introduce bacteria and cause slime to spoil.

Food & Drinks

Sugars and oils can cause slime to become sticky, smelly, or moldy.

Germs & Unclean Hands

Always wash or sanitize your hands before and after playing.

Direct Sunlight & Heat

Heat can melt slime and cause it to break down.

CARE & STORAGE

Always seal your slime tightly in its container after play to keep it fresh and clean.

Store in a cool, dry place away from sunlight, heaters, and humid areas.

Moist, hot slime is more likely to grow mold. Keep it cool and dry!

CHECK FOR MOLD

Check your slime regularly. Discard immediately if you notice any of the following:

- White, black, or green spots
- Fuzzy or fluffy patches
- Unpleasant or sour smell
- Discoloration
- Sticky or watery texture that doesn't improve

**IF YOU SEE MOLD,
DO NOT PLAY WITH IT.
DISCARD IMMEDIATELY.**

Cool it! **BEFORE** *you close it!*

TO EXTEND THE LIFE OF YOUR SLIME:

keep your slime in a cool place
away from heat and moisture!

**SLIME CAN BECOME
WARM FROM PLAYING.**

so let it cool down!

**STORING IT IN THE
REFRIGERATOR**

will ensure a long shelf life
for your slime!

ONCE COOL,
twist the lid tightly shut!
